Welcome at the Bucharest Summit !

I am very pleased to be at the Bucharest Summit with CASZIN as a media partner. Just like the important European industry event, we are targeting cam models and platforms, studios and everyone who works with fan portals. Naturally, affiliates, payment providers, traffic networks and AI will also take center stage.

I am delighted that CASZIN is increasingly becoming a knowledge base in all these verticals with the help of our partners. At the same time, we are of course constantly providing all readers with news from the industry. Our newly established forum offers a platform for all those who want to exchange ideas.

We will of course continue all this and constantly expand it. In this way, everyone in the business will find real added value with us.

In this brochure, we only briefly present a small selection of important topics, which we will then continue in our online edition. You can continue reading the corresponding text online at the end of each extract by clicking on the corresponding QR link.

We would also be delighted to report on your new developments and offers.

At the same time, we are of course always open to input from you. Anyone offering a new product or service is welcome to contact me directly. You can find my contact details on the last page of this brochure.

And now, have fun and good business at the Bucharest Summit!

Bernhard Bradatsch

Background Infos:

VISIT-X: Cam-Platform with added value

VISIT-X has been offering live streams for German-speaking countries since 1999. The long experience is reflected in the quality and versatility of the products. In addition to the flagship VISIT-X.net, there is the phone sexcam service BeiAnrufSex.com, the amateur video platform ersties.com and the dating site Lustagenten.com.

VXMODELS

Since the beginning of 2024, VISIT-X is now also compatible for the Spanish market and has a number of Spanish models. The associated affiliate program VX- CASH.net also offers its affiliates a marketplace with dozens of international dating and cam offers.

Deutsche Onlyfans: A centre for creativity and support

In the dynamic world of content creation platforms such as Onlyfans, Fansly and other similar services, a special community has crystallised: the 'German Onlyfans'. Contrary to the similarity in name, this community is not an offshoot of Fenix Limited, the company behind Onlyfans, but an independent initiative that has existed since 2017.

'Deutsche Onlyfans' was originally established as the starting point for the now well-known Famez - a marketing and management company. The community has set itself the task of offering German-speaking and international content creators a platform on which they can receive support and increase their presence.

International orientation

The community is not just limited to German-speaking creators. It also includes artists and influencers from all over the world. Even celebrities find a stage here to interact with their fans. In addition, Deutsche Onlyfans serves as a news source on the latest developments and trends on platforms such as Onlyfans, 4Based, Fansly and F2F (Friends2Follow).
