Welcome to Seville !

CASZIN launched at the TES in Prague around a year and a half ago. A lot has happened in this relatively short period of time. More and more creators/camgirls, affiliates and studios are using our magazine as a source of information for the latest news from the industry, finding valuable background reports on legal and tax conditions as well as guides on technology and content production in order to further optimise their sales. It's no wonder that portal operators, agencies and tool providers are now also among our regular partners in order to communicate directly with their target group. We are therefore all the more pleased to once again address all participants as a media partner of TES in order to serve as a staging post for industry insiders and newcomers alike and to provide them with unfiltered, first-hand information. As always, some topics are outlined in this brochure, which can then be conveniently continued online in the detailed online version - in either German or English.

In the online magazine, we now offer hundreds of other articles that summarise information directly from professionals for professionals, which is intended to help everyone and constantly advance the industry. As always, we have an open ear for anyone who would like to present themselves, their product or service or their company to others in order to find new partners. On the last page you will find all the contact details to get in touch with me - I am happy to provide short distances, a good pedigree and many years of experience to offer everyone a platform for further business development. With this in mind, here's to good contacts, business and co-operation in Seville,

100% commission for affiliates at 777

Now comes 777 with an offer that no one can really refuse: Because 100 percent is hard to beat, but that's exactly the rate affiliates who sign up with 777partner.com now will receive. This includes every first payment made by a new customer (excluding VoiceCall). This can quickly amount to 99 euros in one go.

It pays to be quick!

If you want to benefit from this, you shouldn't take too long. The promotion runs until the end of March 2025. Installation is very simple, all you need is a link with your own webmaster ID according to the scheme: [https://www.jetztlive.com/?id=\[wm-id\]](https://www.jetztlive.com/?id=[wm-id]). On 777partner.com you will find lots of advertising material. These include classic or Cambox banners.

Profile pictures of camgirls who are currently live are displayed and made even more attractive with a hover effect. The box adjusts automatically depending on its position. The so-called Regist-Box is just as popular.

777partner.com

There users just need to enter their email address and receive an instant access. All you need to do is enter the email address in a pop-up window and the new user will receive their complete access via email. The tool can be used effectively in WordPress blogs with sedcards, landing pages or any type of portal script, for example. There are also other advertising tools such as customizable registration forms, banner rotators, RSS feeds with online cams and much more. So if you want to take the 100 percent commission with you, don't hesitate and register directly.

New CRM-Tool for OnlyFans

TopCreator is a new CRM tool for OnlyFans that allows creators and agencies alike to put their profiles in the fast lane. It helps to understand and analyze customers, optimize your content accordingly and provides the tools to ensure growth in sales and subscriptions alike.

Unlike other CRM systems, TopCreator allows anyone to get started immediately free of charge. Agencies and large creators can also use the software free of charge for 30 days. And best of all: anyone who still earns less than 1000 \$ per month with OnlyFans can continue to use TopCreator free for an unlimited period. For all others there is an attractive and adjusted price scale.

Desktop, mobile and browser extension

TopCreator is currently available as an app for desktop (Windows and MacOS), mobile (iOS and Android) or browser extension (Chrome).

To list all the possibilities of TopCreator here would go beyond the scope of this article. But we will reveal a few things: A sophisticated AI supports the Creator with helpful fan analyses, direct translations, automated content recommendations or smart support and text additions in the chat. The “Share for Share” and “Like for Like” functions make it easy to collaborate efficiently with other Creators. There are also numerous functions for automation, including mass messages to online users, retrieving expired subscriptions and fans, additional welcome messages and PPV follow-ups.

You can find the complete feature list and much more information about TopCreator in our online edition with this QR code:

Famez-Creators - the brand new platform and VIP club all in one

Creators present themselves on several platforms in order to reach as many fans as possible and optimize their own sales. Each platform also has its own peculiarities, from the payment systems offered to the amount of the payout and the presentation of the content. It is difficult for individual creators to get everything under one roof. With Famez-Creators, a platform is now being launched that connects fans and creators across the portals.

4based, OnlyFans and F2F under one roof

This covers three important portals, and Famez-Creators is aimed at influencers and fans of all portals. The platform now provides the digital stage on which every creator can present themselves in a search engine-friendly profile and from there link to other portals as they wish.

The beta phase is currently still free for everyone! In addition to creators, agencies will also soon be able to present themselves.

If you register now, you can use all the functions free of charge until further notice! This also applies beyond the second phase, which will start in April. Fans will also benefit from the new Famez Creators platform. After all, they can quickly and easily find their favorite creators with their preferred inclinations or from special niches and can immediately follow them on the fan portals.

In addition to the new portal, Famez offers a full service for creators, such as professional advertising campaigns, marketing strategies and comprehensive protection against content leaks.

TantumPay - Anonymous payments made easy

Anonymous and secure at the same time: TantumPay's unique payment system protects the customer's identity and guarantees secure payment at the same time. This is because at no time is the customer's personal data transmitted to the retailer - and this is not even necessary for secure processing. In this way, the customer can rely on the anonymity that is so important in the erotic sector. This in turn helps the provider to approach the customer as a partner and facilitate payment.

Anonymous payments as a revenue booster

With TantumPay, users pay via Google and Apple Pay, credit and debit cards as well as by bank transfer. There is no fixed transaction fee. Tantum only charges a percentage fee – ideal for microtransactions.

The TantumWallet app on the smartphone also makes it particularly easy: the customer creates a “digital identity” there, which is used for payments and the optionally available additional age verification (AVS).

Coming soon: Tantum Banking

In addition, Tantum AG will soon be offering its partners high risk friendly business accounts for incoming and outgoing payments (SEPA & Swift). Payments to creators, affiliates and other partners are processed reliably and in accordance with legal requirements.

You can find more information about TantumPay in our online article:

4based for Affiliates

4based is becoming increasingly popular with creators and agencies, and it also offers many opportunities for affiliates.

Among the fan portals, it initially offers a variety of payment options, including PayPal and many others. Other fan portals can only charge their customers by credit card, which drastically reduces the conversion rate for affiliate traffic. In Germany, for example, only around one in three people have a credit card.

Permanent affiliate commission for fan traffic

If you want to earn money as an affiliate with 4based, you have various options. Firstly, you need your own profile. This is quickly created. Content on the profile is not required for the affiliate. The link created in this way is suitable for affiliate advertising, which then earns a 10% commission. This may not sound like much at first, but it applies to all sales that a newly recruited user then makes on 4based. If a new Creator signs up via the link, a 5% commission is charged on their payouts. This is due to the fact that Creators receive 70 % of their sales.

However, it can quickly become very worthwhile for successful Creators.

Partner deal for further opportunities

The 4based partner deal also opens up further possibilities. This function, which can be activated on request, links two creators, so to speak, who can then enter into an individual but binding agreement on the reciprocal advertising of fans. This also opens up further opportunities for affiliates working with creators.

Further details on the partner deal and effective advertising opportunities can be found in our online article:

Startalk: Mia Roux in interview

CASZIN choosed Mia Roux as Creator of the Month. This is more than justified, as Mia has had an impressive career. She is active on various platforms with a great deal of dedication and hard work and has built up a large fan base. Mia Roux also works as a model, but can also be found at castings time and again. CASZIN spoke to her about her reasons for working in the industry and her daily work.

„I really enjoy presenting myself in front of the cam! There are lots of cool people you get to know. And where time flies by.“

„I am working an premium and freemium cams. Freemium is for me more relaxed. You simply have the time to chat to fans a bit. And not having to deliver a show within a set time limit.“

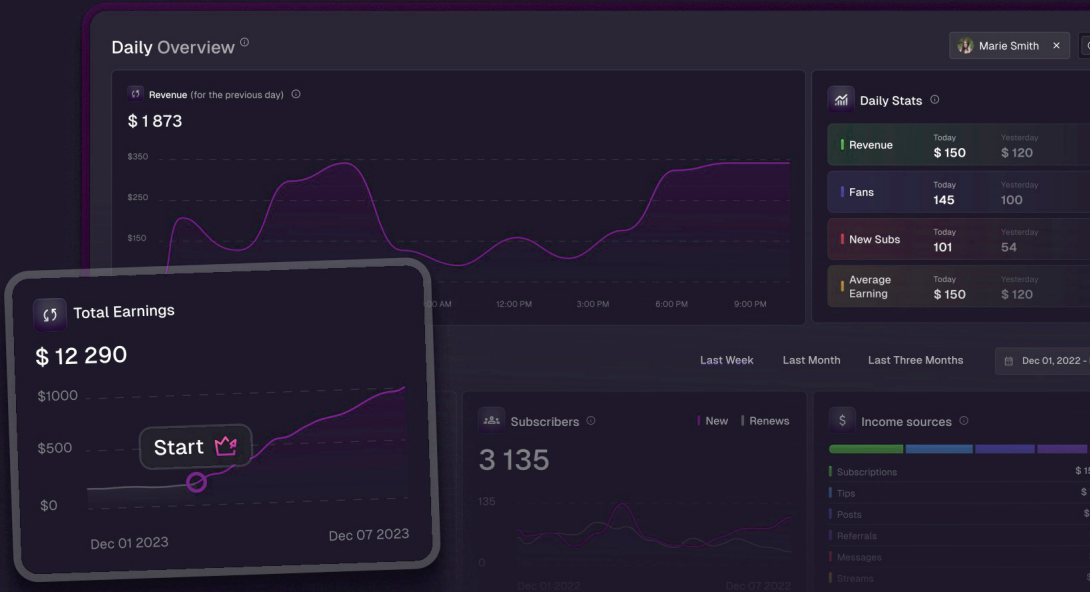

„I have already tried out many different areas. But photography is a passion of mine. It takes a lot of work. But seeing the result at the end makes me very proud.“
