Welcome to Bucharest!

CASZIN is represented at the Bucharest Summit for the second time. For eight years now, the event has established itself as a meeting place for the industry and offers more and more - not only for cams, models, creators, studios and platform operators. Agency owners, affiliates and other decision-makers also make valuable contacts here and grow their business.

A lot has happened in the meantime.

The Bucharest Summit is covering more and more topics - I would like to mention artificial intelligence as an increasingly industry-relevant technology as just one example. No wonder it dominates many of the more than 50 panel discussions. But there is also much more on the agenda in Bucharest this year: The more than 100 brand ambassadors and decision-makers of the cooperation partners will ensure this. Glamorous events, including the Award Gala, guarantee an appropriate atmosphere beyond the business discussions.

At the same time, CASZIN.COM has developed further in just under two years. Hundreds of articles provide information about the market, give insights into the daily work of the various participants, present new products and companies or give tips on how to advance your own business in the various verticals.

Would you also like to be present for our rapidly growing readership?

And now, have fun and enjoy networking!

The 777 comes with a host of new features for studios and shows

777livecams.com

JETZTLIVE.com

The cam portals jetztlive.com and 777livecams.com, which target a German and international audience, offer a variety of exciting features. The new features for studios and cam girls are particularly interesting.

Earn commission by advertising new shows or studios!

If you are already successful on cam portals, you can also earn money by convincing others to advertise new shows (camgirls), for which a commission of at least €50 is guaranteed. A personalised affiliate link is shown in the master account of the show.

Flexible options for managing shows

The master accounts of jetztlive.com and 777livecams.com offer a special feature. All the shows and camgirls you work with can be managed from there, including girls working in a studio or colleagues whose coaching and billing you handle. It is usual for the revenue generated to be split between the master account and the individual show.

One of the special features of jetztlive.com and 777livecams.com is that revenue splitting can be defined from the master account. Furthermore, the master can decide whether the individual show can see the entire revenue or only the portion that applies to this particular show.

For example:

The master and camgirl have agreed on a split of 30% to 70%. The girl generates a payout of €1,000. The master can then choose whether the camgirl sees the full €1000 in her statistics, or just her share of €700. These are just a few examples of the versatility of the cam offer.

A sub-headline reads: 'The ultimate platform for creators to grow their fanbase, monetize content, and scale their business - on OnlyFans, 4Based, FansyMe, Maloum & more!'. There are three buttons: 'Subscription levels', 'Blog stats', and 'Donations'. Below these are three icons with labels: 'Access to private chats', 'Private posts', and 'NSFW Content'. At the bottom is a pink button that says 'Start Your Page!'.

OnlyFans and Fansly Promotion with SexyDixyAds

If you want to really rocket ahead on OnlyFans, Fansly and other fan platforms, you often have a problem: Where will the traffic come from? The best content and the most attractive profile won't help if nobody can see it. This is exactly where SexyDixyAds comes in.

The service offers creators and agencies the opportunity to present themselves prominently on various adult and model sites with picture series and video teasers. The desired target group is reached there and then directed straight to your own profile. High-value fans become subscribers and then loyal customers.

Reliable statistics

Monitoring success plays a major role. This is why SexyDixyAds offers detailed statistics and precise analyses of current campaigns. In this way, performance and audience engagement can be precisely analysed and controlled. Prominent creators have already used the service and achieved sustainable growth of their fanbase.

Suitable for all categories

Whether straight, lesbian, gay, transgender or other types of content. The advertising platform is suitable for all genres and places the teasers on the relevant pages.

Tantum - Corporate Accounts & Discrete B2C Payments

Tantum now offers corporate corporate accounts and much more. The demand is high, especially in the adult sector. And conventional institutions only fulfill it in part, or generally have their problems with the industry. Not so with Tantum. TantumCorporate accounts combine the security of a regulated institution with the flexibility of a FinTech. Here you can accept payments, manage funds and send payouts across the globe. Dedicated EUR IBANs, real-time balance and other important features offer a comprehensive solution.

Mass payouts for partners

Many portals carry out monthly or even weekly payouts to a large number of creators, camgirls, affiliates or other partners. This is exactly where Tantum's service comes in for convenient, transparent and clear processing.

All-in-One Dashboard

Handle complex processes simply and securely. This is ensured by the dashboard, which displays all functions in a clear overview.

Mass payouts can be entered there as a CSV file or automatically via an API interface.

But the dashboard offers much more: Monitor balances, generate statements, set user roles and execute batch payouts. All this is done via a completely intuitive interface. In addition there are

Custom reporting and transaction filters as well as a comprehensive user and permission management.

Open to complex industries

Tantum was built to serve digital businesses operating in regulated but underserved sectors. The specialisation includes, among others: Content and creator platforms, high-risk industries, affiliate and marketing networks, digital services and international shareholders.

TantumPay: Anonymus Payments Made Easy

Anonymous and secure at the same time: Tantum's unique payment system protects the customer's identity and guarantees secure, riskless one-click payments at the same time. This is because the customer's personal data is never passed on to the retailer –

By using the TantumWallet mobile application onboarded Tantum customers can rely on anonymity and discretion, which is particularly important in data-sensitive industries such as the adult entertainment industry. This allows providers to tap into new data-sensitive user groups and generate additional revenue.

**4based on winning track
with many new features**

4based continues to gain ground as a fan portal for German and international creators.

New features are constantly being activated to optimize sales:

If you want, you can soon set scaled subscription prices for your own profile. Options are available for subscriptions of one, three, six or twelve months.

There are also changes to the mass mails: those who send paid content (PPV) to their fans can now define preview images for the videos, images or image series offered. This gives fans an impression of what they can expect. If a mistake is made when sending, this is no problem either: mass mails can now be recalled.

Even more flexible payout:

Anyone who wants to can now also receive their payout via Paxum Payment.

This opens up numerous options for further money transfers, including ATM withdrawals with the Paxum Debit Card in many countries.

Blog with help and success stories

Anyone who needs support or food for thought before starting out as a creator on 4based will find both on the blog at blog.4based.com

Step by step, the blog explains how to get started as a creator and how to make the most of the opportunities on the site. Those who are motivated by examples will find impressive success stories from Hailee Summer, Manja Winkler, Tyra Ride, Magic Mia and many others.

Notifications directly to your mobile phone

4based can now also send updates directly to your mobile phone so that you are immediately informed of new messages, for example. This can be easily set up for both Android and iOS in just a few simple steps.

Sarita - Creator of the Month June 2025

Authenticity, a friendly presence and passion - that is Creator Sarita's recipe for success. She gained experience on various fan portals and successfully built up a loyal base. She achieved all of this without external traffic or social media profiles. To CASZIN, she explained in detail how she achieved this.

"Maloum from Austria is currently my new little favourite - for the simple reason that I'm still new and curious. In general, my experience is that the newer the platform, the more customer-orientated, user-friendly and intuitive it is to use."

"I am who I am - no role, no script. My fans notice that, and I think that's what makes the difference."

"For me, traffic comes exclusively from promotional profiles on the relevant platform, but I primarily focus on maximum visibility in the feeds."

"I love to seduce individually and be present in full intimacy. Every video is like a secret whisper, intended only for his ears and mine."

"I'm hardly ever active on social media due to a lack of time, which is why I don't actually have any external traffic to my profiles from there."
